Task Timeline Milestones

Closed Sprints

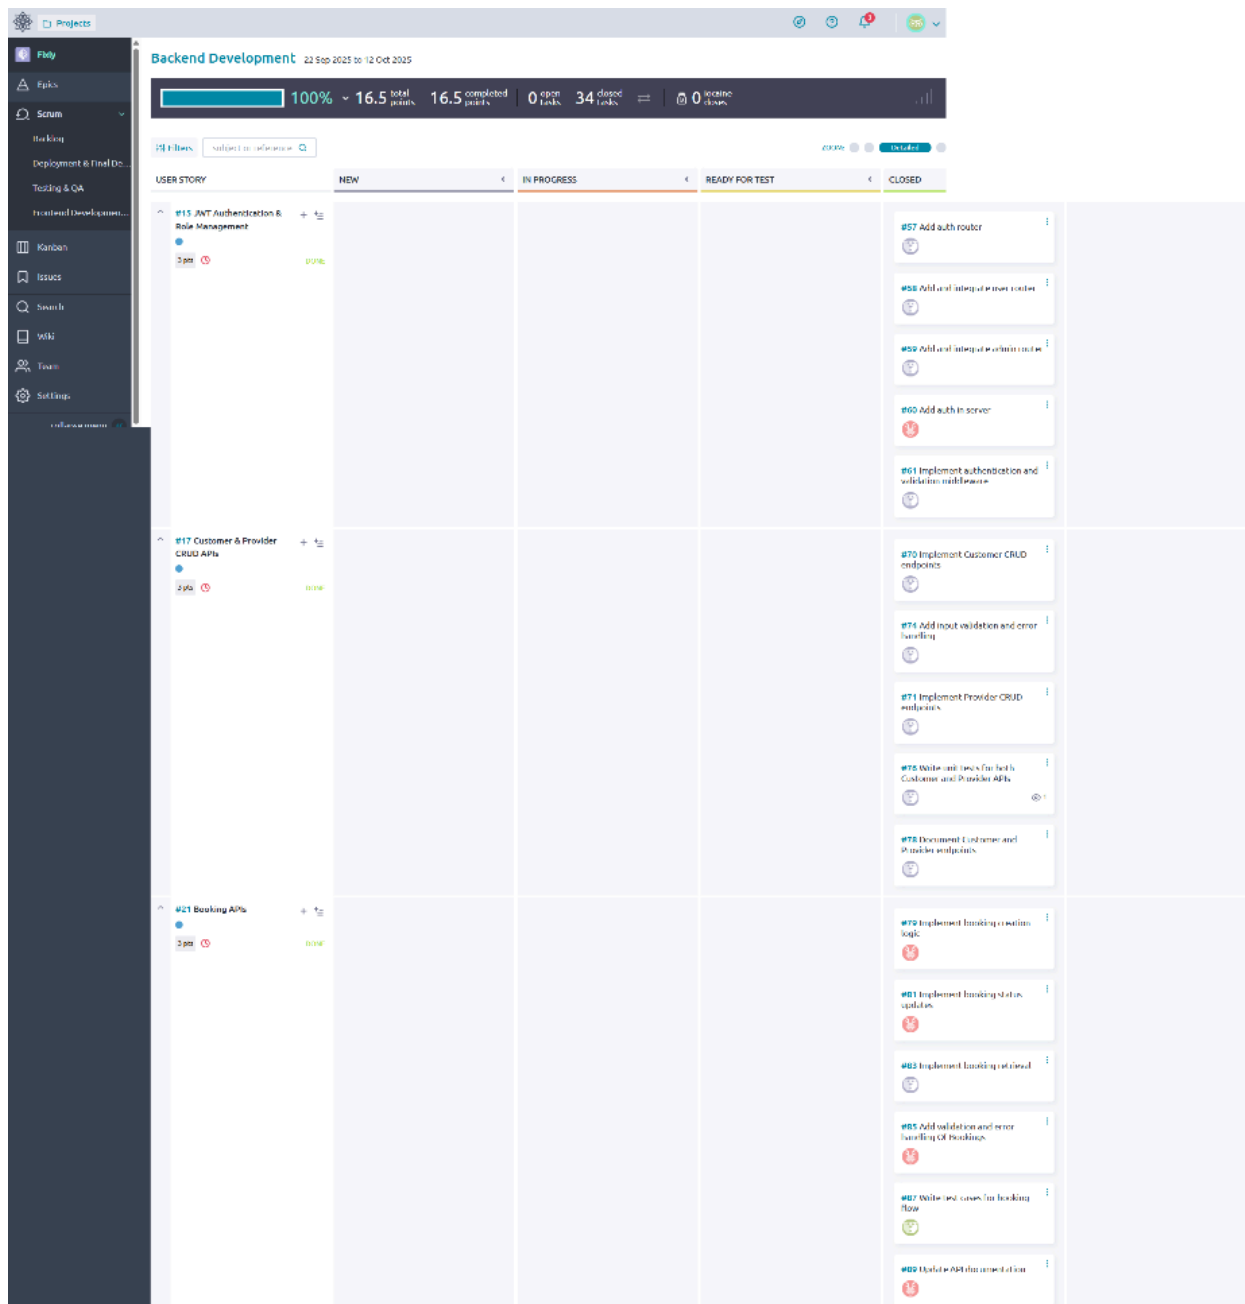

Sprint Details

The screenshot displays the Fixly application interface for a sprint titled "#45 Backend Development". The interface is divided into several sections:

- Left Sidebar:** Contains navigation icons and labels for "Fixly", "Epics", "Scrum", "Kanban", "Issues", "Search", "Wiki", "Team", "Settings", and "collapse menu".
- Header:** Shows "Projects" and a "CLOSED" status with a "DONE" button.
- Sprint Details:**
 - #45 Backend Development:** The main title of the sprint.
 - EPIC:** A section for the epic, including an "Epic color" selector and an "Add tag+" button.
 - Description:** "Build the core APIs and backend services for Fixly."
 - Attachments:** A section with "0 Attachments" and a "Drop attachments here!" prompt.
 - Related user stories:** A table listing related user stories with their status and assigned team members.
 - Comments and Activities:** A section with "0 Comments" and "9 Activities", including a text input for comments.
- Right Sidebar:**
 - ASSIGNED:** Lists team members assigned to the sprint, including "Krishn Navadiya".
 - WATCHERS:** Lists team members watching the sprint, including "Miraj Shekhda", "Parth Limbachiya", "harsh kathrotiya", and "Princy Kachhadiya".

User Story ID	User Story Title	Status	Assigned To
#15	JWT Authentication & Role Management	Done	harsh kathrotiya
#17	Customer & Provider CRUD APIs	Done	Krishn Navadiya
#21	Booking APIs	Done	Krishn Navadiya
#23	Service Listing APIs	Done	harsh kathrotiya
#28	Review & Rating APIs	Done	harsh kathrotiya
#29	Cloudinary Image Management	Done	harsh kathrotiya

Tasks

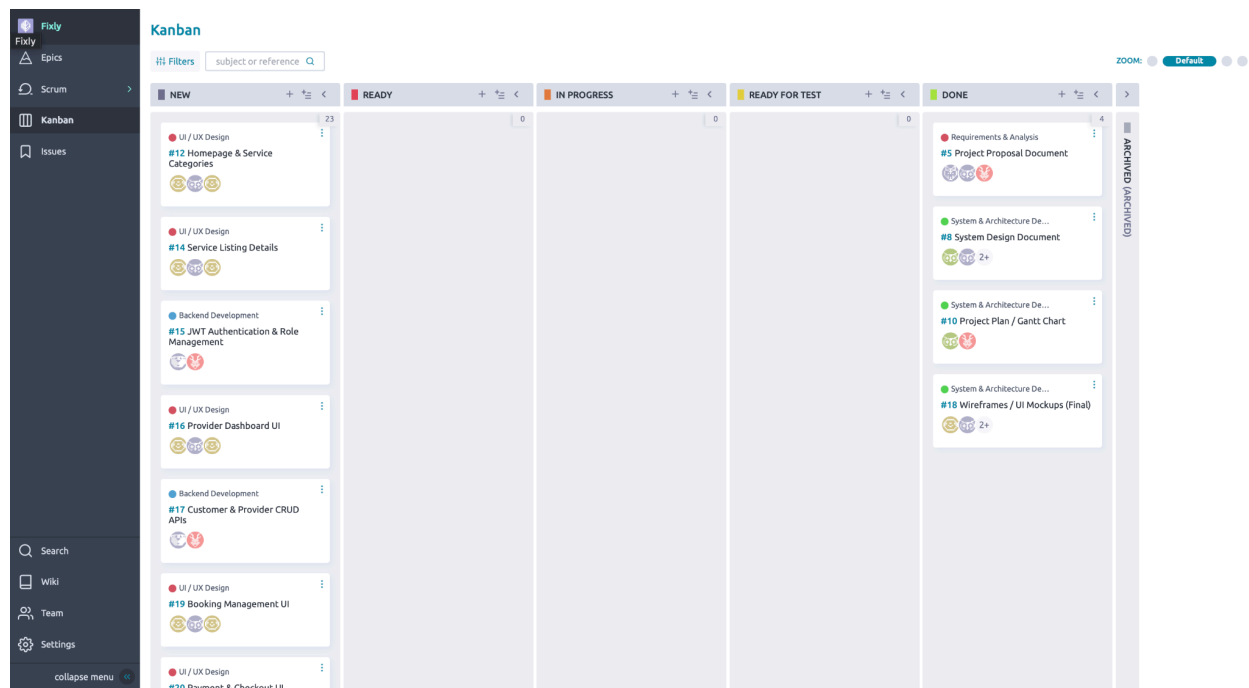

FIXLY- Convenience at Your Doorstep

The screenshot displays a Jira board for the project 'FIXLY- Convenience at Your Doorstep'. The board is organized into three main sections, each with a list of tasks and their progress status.

- Service Listing APIs** (3 open, 0 done):
 - #23 Implement API to add, edit, and delete services
 - #24 Implement API to fetch available services
 - #25 Add filters and pagination
 - #26 Implement search functionality
 - #27 Write unit tests for service endpoints
 - #28 Document all service-related APIs
- Review & Rating APIs** (2 open, 0 done):
 - #29 Implement API to add a review and rating
 - #30 Implement API to fetch provider reviews and calculate average rating
 - #31 Add validation
 - #32 Write test cases for review APIs
 - #33 Document all review endpoints
- Cloudinary Image Management** (2 open, 0 done):
 - #34 Setup Cloudinary configuration in backend
 - #35 Implement image upload endpoint for provider/service images
 - #36 Implement image delete/update functionality
 - #37 Store Cloudinary image URLs in database
 - #38 Add validation for size, type, and format
 - #39 Write and cover unit image upload/delete APIs
 - #40 Document image management endpoints

The bottom of the board shows a 'SPRINT ISSUES' tab and a 'Task' toggle.

Kanban

FIXLY- Convenience at Your Doorstep

The screenshot displays the Fixly Kanban board interface. On the left is a dark sidebar with navigation options: Fixly, Epics, Scrum, Kanban (selected), Issues, Search, Wiki, Team, and Settings. A 'collapse menu' button is at the bottom of the sidebar. The main workspace is titled 'Kanban' and features a search bar labeled 'Filters' with the placeholder 'subject or reference'. Below the search bar are five columns representing workflow stages: NEW, READY, IN PROGRESS, READY FOR TEST, and DONE. Each column has a header with a plus icon, a list icon, and a minus icon. The 'NEW' column contains three cards for 'Frontend Development and ...' with titles '#22 Customer Frontend Integration', '#24 Provider Frontend Integration', and '#25 Admin Dashboard Integration'. Each card shows a '3 pts' label and a '2+' icon. The 'READY' column is labeled 'READY 0'. The 'IN PROGRESS' column is labeled 'IN PROGRESS 0'. The 'READY FOR TEST' column is labeled 'READY FOR TEST 0'. The 'DONE' column contains two cards: one for 'Frontend Development and ...' with titles '#86 Implement-search-functionality', '#88 Write-unit-tests-for-service endpoints', and '#90 Document-all-service-related-APIs'; and another for 'Backend Development' with title '#28 Review & Rating APIs'. This card shows '2 pts', a '5/5' status, and a list of sub-tasks: '#69 Implement-API-to-add-a-review and-rating', '#72 Implement-API-to-fetch-provider reviews-and-calculate-average...', '#73 Add-validation', '#75 Write-test-cases-for-review-APIs', and '#77 Document-all-review-endpoints'. A vertical bar on the far right is labeled 'ARCHIVED (ARCHIVED)'.
